

Crypto Legions Survey

1,036 responses

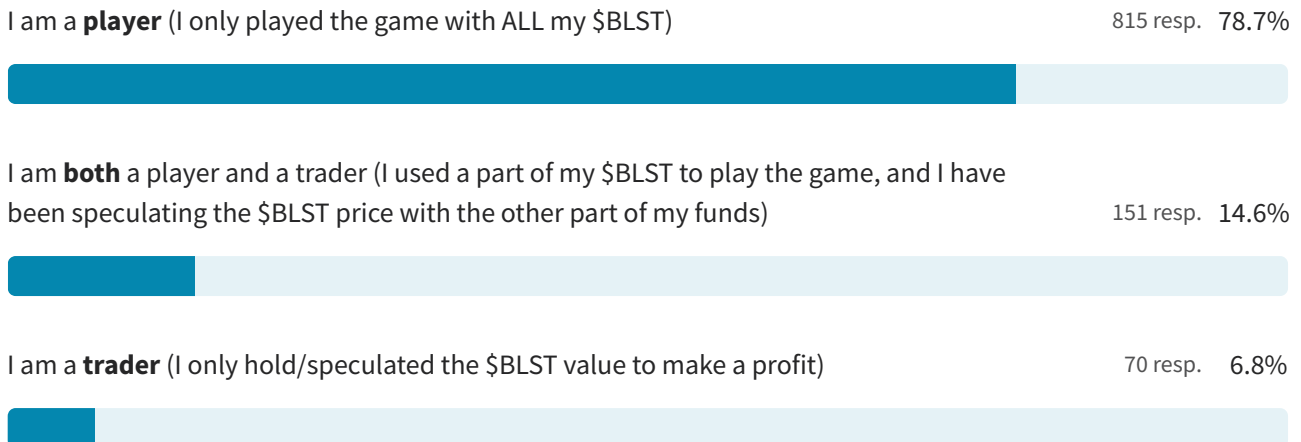

Have you read our complete report about what happened to the Crypto Legions game on <https://cryptolegions.medium.com/crypto-legions-play-to-earn-game-made-it-to-67-days-240d11668bc6> ?

1036 out of 1036 answered

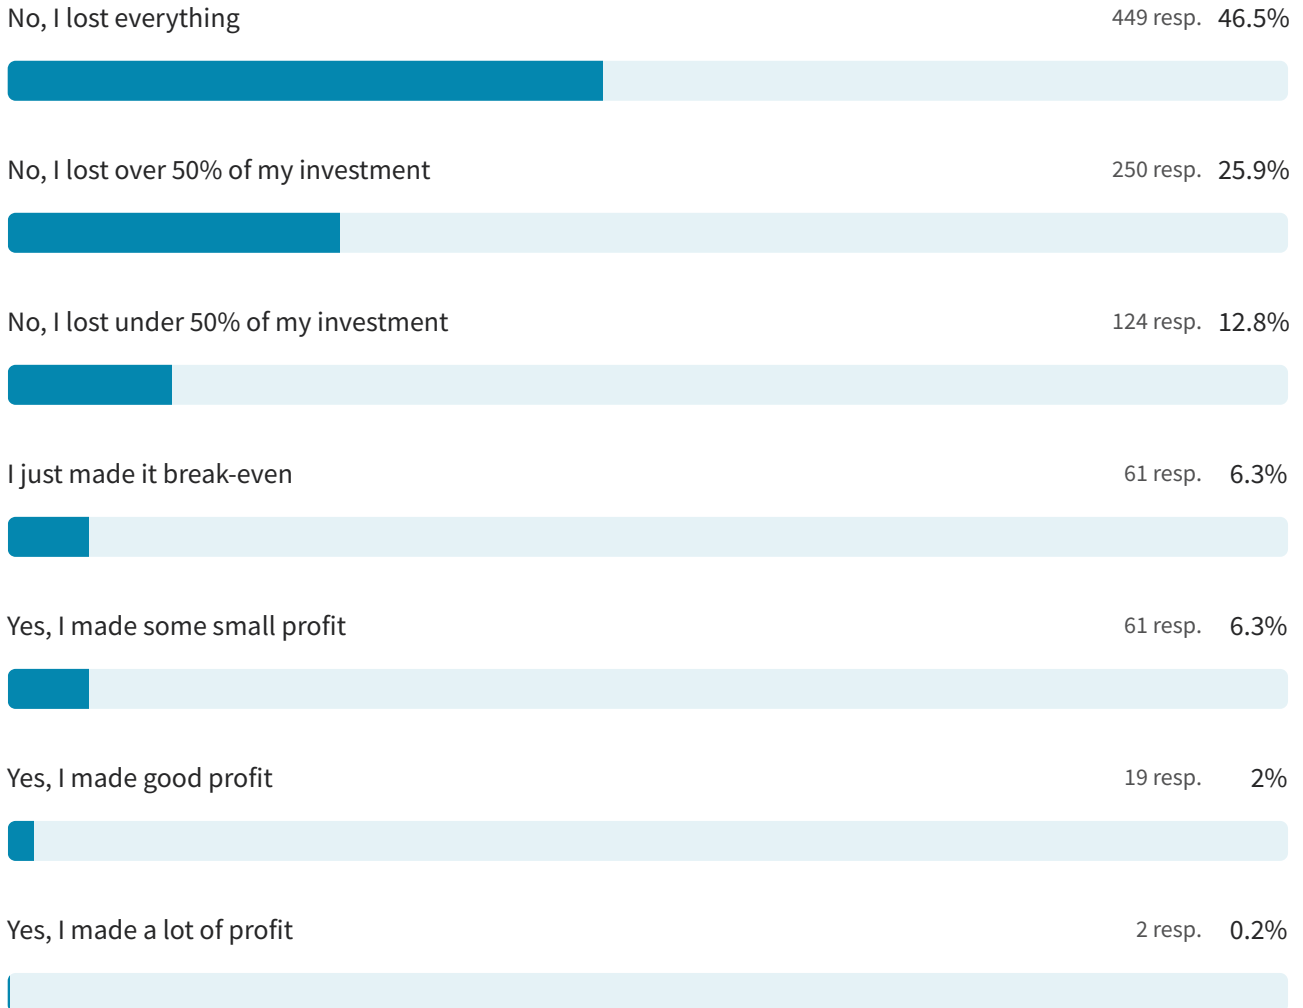

Are you a player or a trader?

1036 out of 1036 answered

Comparing your total investment (in BUSD) and the amount that you were able to get out of the game... Did you make a return on investment?

966 out of 1036 answered

How do you suggest we handle the compensation for players of Crypto Legions v2?

966 out of 1036 answered

LOSERS COMPENSATED: Only players who lost money should be compensated, where the compensation matches the amount they lost (those who lost more, get compensated more), & the most supportive players get a whitelist spot for a future game. 532 resp. 55.1%

EVERYONE COMPENSATED: Everyone who played should be compensated, even those who made a profit. 176 resp. 18.2%

LOSERS COMPENSATED WITH a FIXED AMOUNT: Only players who lost money should be compensated with the same fixed amount (so everyone gets the same amount, no matter how much they lost), & the most supportive players get a whitelist spot for a future game. 107 resp. 11.1%

ONLY WHITELIST FOR LOSERS: Only players who lost money should be compensated with a whitelist spot in the next version. Nobody gets any financial compensation, and all money should be used to make the next v3 version better. 60 resp. 6.2%

ONLY WHITELIST FOR EVERYONE: All players should be compensated with only a whitelist spot in the next version (even the ones who made a profit). Nobody gets any financial compensation, and all money should be used to make the next v3 version better. 59 resp. 6.1%

NOBODY COMPENSATED: No players should be compensated financially, because this is the risk of playing play-to-earn games. All money should be used to make the next v3 version better. 14 resp. 1.4%

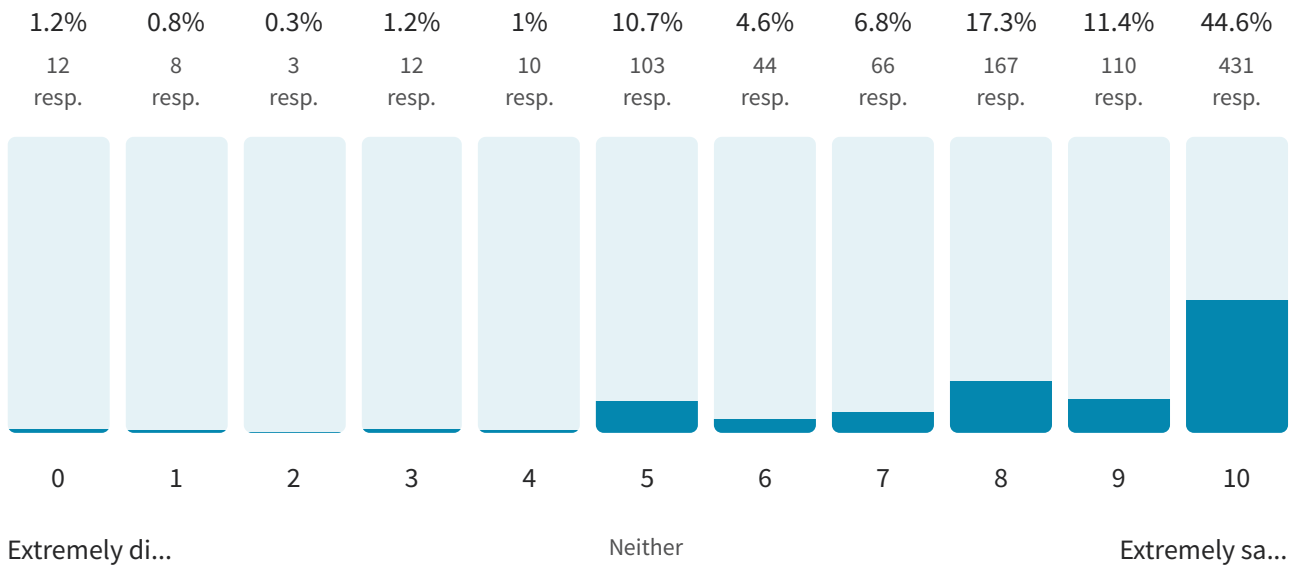

Other 18 resp. 1.9%

How do you rate the security of the v2 game (CertiK audit, SolidProof KYC, etc) on a scale from 0 to 10?

966 out of 1036 answered

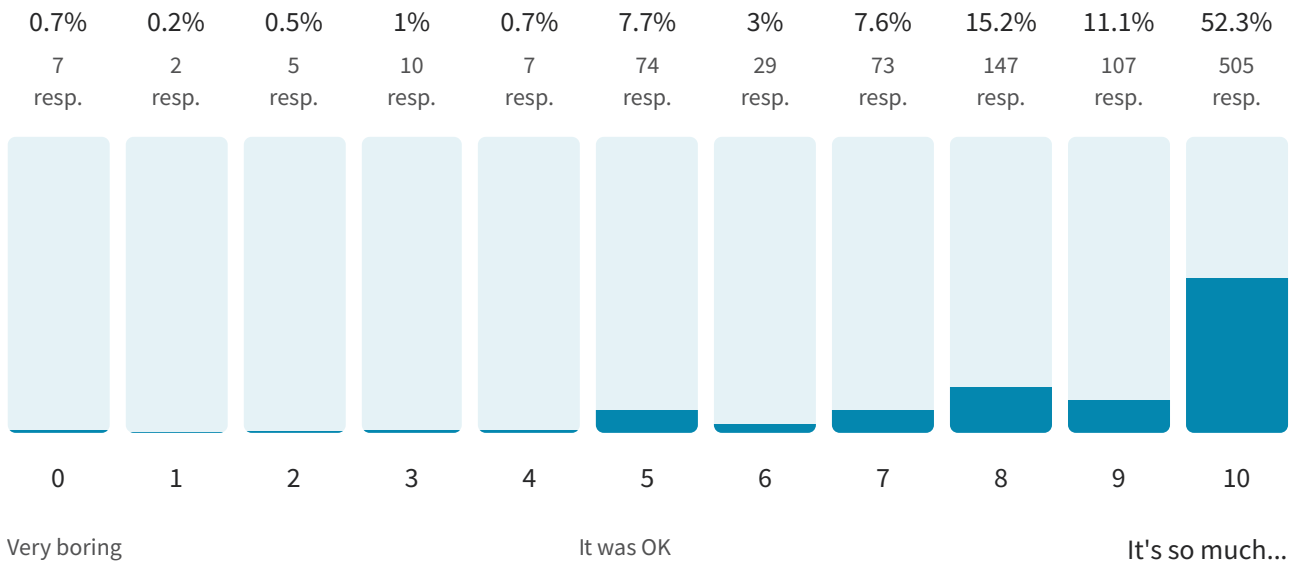

8.2 Average rating

How did you enjoy playing the game as a player?

966 out of 1036 answered

8.6 Average rating

Would you like the Crypto Legions team to launch a v3 version of the game?

965 out of 1036 answered

Which items would you like to see improved in the v3 version of the game?

932 out of 1036 answered

Make a smaller presale, whitelisting only players, so traders do not sell their tokens just after the launch 389 resp. 41.7%

More marketing of the game 369 resp. 39.6%

Tax players MORE if they want to to take out a lot of money from the Unclaimed Wallet 319 resp. 34.2%

Improve the graphics inside the game (warriors, beasts, monsters) 291 resp. 31.2%

Reduce the ROI (Get money back slower than in two weeks, and have the game extended for more time because it has less risk) 226 resp. 24.2%

Improve the gaming user interface (the layout of the dashboard, logic of warriors/beasts/legion pages, etc) 223 resp. 23.9%

Improve the graphics on the website www.CryptoLegions.app (logo, caves, dragons behind the logo, etc) 151 resp. 16.2%

Tax players LESS if they want to to take out money from the Unclaimed Wallet 142 resp. 15.2%

Make a higher ROI (Get money back faster than in two weeks, and riskier gameplay as a result) 126 resp. 13.5%

Changing the name of the game 53 resp. 5.7%

Other 84 resp. 9%

How fast would you suggest to launch a v3 version of the game?

928 out of 1036 answered

As fast as possible 588 resp. 63.4%

Wait as long as needed until the market conditions are excellent again (this could be in 2 weeks, 2 months, 6 months, or maybe 2 years... nobody knows) 131 resp. 14.1%

In 2-3 weeks 73 resp. 7.9%

In 3-6 weeks 62 resp. 6.7%

In 2 months from now or later 37 resp. 4%

In 6-8 weeks 37 resp. 4%

Can you feel and see the dedication of the Crypto Legions team (the devs and the mods) to the game and being attentive to the community?

1036 out of 1036 answered

Yes, I can see the team behind the game is dedicated to make the game succeed 1k resp. 97.3%

No, the team has not been attentive to the community at all 28 resp. 2.7%

What else would you like to share? (optional)

I am very disappointed with the outcome of this P2P game, as I enjoyed it very much.

However, I am very impressed with the way the company handled the situation afterwards, clearly communicating to users that it would be difficult to continue playing the game, and even considering a guarantee.

I don't know of any other company that has responded so sincerely to users after the game's end had been decided.

Even if there was no guarantee, it made me want to participate again in the next project you guys create.

Thank you to the management for being so honest with us under such difficult circumstances.

Thanks for reading this far!
I will continue to support you!

first congratulations to the legions team, you were the first team I saw with so much transparency and honesty within the nft world, in my opinion you are superior to the creators of Crypto Mines, for the game to be more successful in its next version, a little more marketing, improvement in the graphics of the trailers to be more attractive to new players, and incrementing an anti-whale system to prevent very bulky sales, thus preventing panic sells.

i believe in the team. whatever team will launch I'll buy and hold. I bought v1 presale and held to the end. I bought v2 presale (thanks to the team that they whitelisted me) and responsibly and small amount sell even at around ath, and held most of the tokens to the end, even bought at the dip. BTW I bought presale with (wallet address removed) wallet, and transfer tokens to (wallet address removed). I supported the project on all socials. Best wishes team. It was a magnificent experience. I am sure so will v3.

Your passion for the game is amazing.
And it was a responsible end.
I am delighted to have been part of this game.

I just want to congratulate the team and devs, it is clear that they want this game to succeed. I just want to tell that in every successful project there is an obstacle to pass and to learn from it, this is one of those obstacle, wishing you the best in v3. Goodluck:>

First and foremost, I would like to express my gratitude to you management.

Hello, My name is (name removed), living in Tokyo Japan.

I have just started to know about WEB3.0 since July and felt very excited to know about this new world. And It was my first time to play "P2E" game in my entire (50years+) life. I was planing to make my first claim on the 12th August. After I receive the BLST, I was planing to purchase the hunting supply. So it was very exciting to consider how to improve my legions for the next play until I heard this news.

Your first message before AMA made me calm as It seemed very honest and clear. And at the AMA, your response was so sincere and full of compassion for the players that my feelings of disappointment and anger disappeared.

In Japan, some influencers tell us that you are doing something unusual (Usually, staff would run away without having any discussion with players). I am also very grateful to have had the opportunity to send you my voice. It was a short time, but I had a great time with CRYPTO LEGIONS for 2-3weeks. I appreciate all experiences which provided from you and CRYPTO LEGIONS including this crises as I believe It makes us smarter and stronger...

Thank you so much indeed...
I'm looking forward to hearing anything about V3!!!

keep improving, and hope the dev team will work continuously wit the community for the relaunch of the game and/or the launch of the new version soon

I just want to say that even though im just a newbie or played this game for a few days before it happened, I really enjoyed this game and wished the game lasted for a very long time. the game is really fun and the concept you guys created is really promising. Wishing everyone a positive outcome, and please make a V3 of the game ❤️

This is the best refining game I've ever played although I lost money I hope I can keep playing

Thank you for the experience the game really is awesome. I know its hard and i dont blame you and i know you are doing everything you can to fix the situation. :)

Im Japanese Im very enjoyed this game. I really looking forward to play v3. Thank you so much for all your hard work.

First, I want to thank the management for putting us first in all of this. It was a very interesting game and I hope it continues.

I don't have much to share because I can see the dedication and love for the project by the devs and the team behind it. Just improve the graphics to make it more enjoyable to play. Can't wait for the Crypto Legions v3. God bless to the team. 🚀🚀🚀

Never surrender

Thank you for all your hardwork and efforts. I wish that v3 will still be a success. Looking forward to it

I love this game. I feel that they are the best management with a sincere response in telegrams. If there is compensation, I would like to continue with them for a long time after v3.

I would like to thank the devs for their transparency and fast response

Nothing much because i really do see the developers willingness to help players that in need and i appreciate it, but i do really hope we get a compensation. Thankyou

I appreciate and trust the quick response of the management.
We also support the next phase.

Crypto Legions V2 was a great game indeed. With a dedicated developers and with so much care for their investors and players. We love the game so much as well as you do. Many investors including me believes on what the devs vision on the game. We are here to support. I invested my money all throughout the game because I know this is not the only span the game would ends. I know it is capable of more sustainable mechanism than any other NFT's I invested with. I know you can overcome these and we are here to support. Just bring back the game and compensate well us to continue also the game even little by little until we survive this scarcity. More power to the Team! I know we can do it 😊

I wish the happiness of players and management.

I wanna thank the whole team of this game Cryptolegion for doing their best for the players and the investor .. Goodluck for the v3.. Im looking forward to play the game again. Thank you.

プレイするのが毎日の楽しみでした。
私はあなたたちを信頼します。
負けずに頑張ってください。応援しています。It was a daily pleasure to play.
i trust you guys
I want you to do your best without losing. I'm rooting for you.

I am rooting for you. Good luck.

Thank you for your dedication and concern for your investors.

Please do not give up and continue to provide games until the end. Thank you very much.

I trust you devs and admins, hoping we could cope up everything.

Thank you so much guys for not leaving us behind. God Bless you all! <3

I can understand the efforts of management. I believed in you and continued to buy NFTs on the market in the hope that I would be able to play the game until the end and be revived. I would like to continue using NFT, which I love, in V3.

Just IMPROVISE and compensate your players after the whole team. I know we can make it again! and please release the V3 as soon as possible <3

It was an amazing though a short journey at Crypto Legion. I got addictive to game and hence never took out my profit and always reinvested in the game. I was aware that P2E games are meant to die someday but didn't expect CL to die so soon. Never mind the team did a great job, was transparent and honest. I would love to play V3 if there are any plans but obviously there need to be some changes to avoid such situations. And also to build the trust to play the next version I think it is very important the compensation is done as soon as possible.

Don't give up on making this game the No.1 in this Crypto/NFT/P2E space.

I believe that Crypto Legions and the team has got what it takes to make this game revolutionary and would be the first of its kind.

I also want to add that if it's possible, the CL Team should also consider adding an expansion of this game where it would feature more interaction and role-play mechanics for a wider variety of gamers.

This is the best P2E game ever with such wonderful ROI. The team behind this is also the best for taking care of the community. I have only 3 legions created during an uptrend, was buying the dips and holding to my tokens. Unfortunately diamond hands didn't win this time. But i still appreciate all the efforts for developing this game, having weekly AMAs, legions university, giveaways & contests. Last but not least, for not ditching the community after all that has happened. Looking forward to recoup my 5k loss in V2 from V3! Love you guys!!

You guys have done a great job with V2 and I would have no problems investing into V3 as you have investors best interests at heart and you are here for us. I would love to see a V3 game and would definitely be investing to keep playing :)

The team is solid please make more improved P2E games.

Guys I believe in U

how you managed the AMA was awesome 😊 very calm and clear. you have a real talent there

The game is very good. I salute to the team and devs for creating this game eventhough I lost almost half of my investment. I look forward to your upcoming projects. Please have my compensate I only very small amount of salary. Thank you!

I am (name removed). I just want to show you my support, even if i hadn't my payback i believe in the team because you are honest with us, as i said in the AMA today, you guys have a big community with your side, lets react to this and return stronger!

this project, team and community is the best of all I joined.. so let's go back again to the moon soon together

i lost all my money, but i still trust you guys, do the best you can

The project team did a good job, but the market environment didn't allow it

Gracias por todo!

You guys are the best team i have ever seen ❤️
Do some changes in tokenomics then V3 will fly hard
No one can stop us

It's a shame what happened to the game, however I see the good intentions of the devs and I really appreciate what you're doing for the community. I'll stay with you and try to coloborate as much as possible to make a better community if another game is released by your side.

I wish good luck to the development team in the new game. You will succeed !

I like your team and Cryptolegions, so look forward to next stage! I believe your team gonna make it.
